

# “Instant Orthodontic” Correction with All-Ceramic Restorations and Rapid Provisionalization

## **Hands-On Program**

**Course Description**  
**Half-Day Hands-On (2.5 – 3 Hours)**

**Jeff T. Blank, DMD, PA**  
**Clinical Instructor for New Millennium Education, LLC**  
**Adjunction Instructor, MUSC College of Dental Medicine**  
**Private Practice, Fort Mill South Carolina**

### **Description:**

**Esthetic clinicians are often faced with the challenge of correcting misaligned teeth with all-ceramic restorations. This hands-on program gives the students the opportunity to gain clinical experience creating a preoperative silicone prep guide and silicone provisional matrix on a preoperative diagnostic wax-up to not only expedite smile design, but remove operative improvisation and stress at the chair. While silicone prep guides are not new themselves, Dr. Blank offers a unique technique that assures proper preparation of the 4 maxillary incisors for pressed and milled ceramic systems in this program. Impressions using a wash/tray technique will be made and Dr. Blank’s “10 Minute Esthetic Provisional Technique” will be performed. This technique guarantees minimal occlusal adjustment, dependable esthetics, and can be delegated to qualified clinical auxiliaries once the technique is mastered by the doctor.**
